POSITION OUTLOOK FOR 2026

QUARTERBACKS - In 2024 Evan Svoboda threw for 137 (419, 5-6). RFAr Anderson started 3 for 3 years for 855 (58%, 5-3). Last year Svoboda moved to TE so they added JUJO Landon Sims and 12-10. Sims was added JUJO Landon Sims for 1971 (56%, 12-10). Sims was used as a runner and led to D drive vs SDSU to lead the 7-0 and was poised to take over as starter then suffered an ACL and won't be back to fall. True Fresh Dura was running the scout team and moved to backup and hit 17-32-179 vs Hawaii. They starter missed 3 games so the 1,000-yard streak was snapped he (never 100%) led with 347 (5-6). Sam Scott was #3 (237, 4-8). In 24 their top guy missed 6 games so Scott was left with 455 (4-7). Last year they added Charlotte RB Temon Kellman (FS#151, 242, 5-0). Scott had 29-132 vs Akron and finished #2 (408, 4-6). True Fresh Samuel "Tote" Harris took control and led with 558 (5-6) and was #5 receiver (194, 11-5). This year they lose Scott and Kellman (#3, 331, 5-2). They added in Diore Hubbard who was West Virginia's #1 rusher in an ACL week and Markell Holman who had 1003 (4-8) for Western Illinois. The RB's will be used more in the pass game in this offense and both Harris and Holman thrive in that role. HC Sawvel calls this unit the strength of the offense. #2 is TE FG (L41). Deion Delancey had a 73 yard PR TD but they finished #128. With everyone back they can only improve and should have a Stock Market rise in the STR. **DEFENSE** - Jay Sawvel was promoted to HC after spending 19-22 as the DC here and enters year three as the head man. He was DC at Wake Forest (17-18) prior. The new OC is Christian Taylor who was OC at San Diego (18-19) and William and Mary (20-23) and an assist in the NFL with Buffalo (24-25). The 3rd year DC is Aaron Bohl, the son of former HC Craig, who spent 20-23 here as the LB's coach. Shannon Moore and Benny Boyer are the co-ST coordinators.

LINEBACKERS - In 24 they lost their #1 (480, 10-9) and #2 (372, 17-7) WR's plus their TE (104, 308, 9-9). TE John Michael Gilbert (4 at 360, 15-7) was the leading receiver. Gylberg missed 4 games but was #2 (425, 14-2). Jaylen Sargent led with 480 (20-9). True Fresh Chris Durr was #3 (348, 11-2) and they all returned in 25. Durr had 6-100 in the offense and led but with just 469 (10-4) on the year. Sargent was #2 with just 240 (12-0). TE Michael Fitzpatrick was #3 (228, 14-3) and Gylberg was #4 missing 3 full games and parts of others. All 4 depart. I list the three deep below and they can only be more productive and CB Tyson Dunn will also play WR. The WR's are pedestrian but the TE's could be the best in the MW.

PHIL'S FORECAST

OUTLINE - In 23 my computer called for 23.3 ppg and 316 ypg and they had 25.3 ppg and 327 ypg. In 24 with a more wide open offense my computer called for 359 ypg but they came up short at 327 ypg and just 19.3 ppg. Last year they had 9 starters back on offense upgrading the QB, WR and OL rooms. In the first 8 games Wyoming had 21 ppg and 366 ypg. They fired their OC after 7 games. Over the 4 games it fell to 6 ppg and 210 ypg. This year they have a mobile QB who should help the new offense and the fact he knows the offense as the OC and both come from William and Mary which had 30 ppg in '23. I list them in 12' personnel as the strength of the TE room and they should top last years numbers by at least a TD per game!

DEFENSE - In 2024 they allowed 28.3 ppg and 411 ypg. Last year they lost 9 starters off of their defense. HC Sawvel led they have upgraded the talent as they added length and size to every unit. Wyoming is known for solid D's and I said should be better statistically and they were. They cut it to 344 ypg and just 21 ppg allowed. This year they lose 9 of the top 13 tacklers but check out page 43 to see what my computer projects for this year.

OWNER - Craig Bohl's was bowe ewigle senior of his last eight years. In 2023 I said they should top 2022's seven wins. At 7-4 Bohl announced his retirement. They waxed Nevada 42-6 and sent Bohl out a winner in the bowl for a 1-4 year and went 7-0 at home for the first time ever and a school record home attendance of 1446 (149,625 1990). Their nine wins were the most since 1999 when Jay Smith was playing his basketball on Grass-and-sod 10 games. That team did benefit from a Net loss wins and were +11 in turnover in 23 both indicators pointing down. The Cowboys under new HC Jay Sawvel opened 4-0 their worst start since 1915. Wyoming was just 27 ypg in MW play but was 2-5. They beat Wash St in the first to finish just 3-6. Last year most indicators were pointing up. They opened 2-0, and were 4-4 but scored just 6 ppg the last 4 weeks and while improving their record I was just 1-4-8. Of the 19 players lost in the portal only 5 d's were starts last year. This is by far HC Sawvel's best team with a vastly improved offense and special teams and a solid defense. They will improve the record once again and check out page 38 to see if they made my coveted Most Improved list.
